

Awakening the Illuminated Heart

June 24, 25, 26, 27, 2016

Friday-Saturday-Sunday-Monday, 9am - 6pm
With Dr. Carl Totton, Certified ATIH Teacher

Workshop will be taught at
Taoist Institute, 10630 Burbank Blvd., No. Hollywood, CA, 91601
Pre-Registration Required in Advance

This 4 day workshop is based on the past 40 years' work of Drunvalo Melchizedek, author of The Ancient Secret of the Flower of Life series and the book, *Living in the Heart*. It is filled with meditations, healing, and exercises that help you on your way to Conscious Ascension. In it, you will learn to activate the beams of light around your head that form a halo, reconnect the pineal gland to your heart, enter the tiny space of your heart, and learn to live and create from this sacred place. You will learn to activate your natural Merkaba which will become permanent immediately! Every participant benefits greatly from this amazing experience. Come along and join with us. Several years' worth of ancient knowledge is transmitted in 4 days!

The days are filled with positive energies, meditations, music, movement, sound healing and a deep connection with Mother Earth and with all who attend. We hope to see you there. Take these 4 days and change your life forever!

Cost: \$450 (\$375 each for couples). Past graduates may repeat for only \$350!
Payment plans available. Contact Dr. Totton at drcarat@yahoo.com to enroll. You may pay through PayPal at www.taoistinstitute.com where it says "Pay for Classes".
Pre-register in advance. Registration forms available in office or on-line at Drunvalo's website, located at www.drunvalo.net under Carl Totton's Events listing. **All will need to go to Drunvalo's website and pay a one-time, lifetime registration fee of \$14.99 to register first.**
